PROFILE

Creative and detail-oriented Full Stack Engineer with 10+ years of experience building scalable, performant web applications. Specialized in crafting intuitive frontend experiences using Angular, React, and Shopify. Adept in both startup and enterprise environments, collaborating cross-functionally to deliver impactful, user-centric solutions. Proven track record in leading UI architecture and contributing to backend services across modern SaaS platforms.

WORK EXPERIENCES

FULL STACK ENGINEER

Neuromorphic Machines Pvt Ltd (2019 - Present)

- Owned and led UI development for the company's core SaaS product using Angular, React, and Shopify (Liquid).
- Contributed to backend modules in Spring Boot and Node.js.
- Delivered features in Agile sprints with strong focus on performance and UX.

FULL STACK DEVELOPER

Fabric Monde Pvt Ltd, Bangalore (2018 - 2019)

- Developed a full-fledged ERP system to manage sales, inventory, and vendor operations.
- Delivered responsive web modules using Angular, and built native mobile components in Android (Java).
- Designed and implemented internal tools for automating marketing campaigns.
- Ensured clean UI/UX design implementation aligned with business workflows.
